Art Unit: 3653

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 through 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 lines 9-10, it is not clearly understood how the "roller guide" is raised as no means for raising the guide has been clearly and positively recited.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Hashimoto (Japanese 61-081330, cited by applicant).

Hashimoto teaches a method of taking out sheets comprising: preventing contact between the sheets and the pick roller; aligning the leading ends of the sheets against abutment guide 52; and performing a sheet pressing operation by pressing plate 55.

5. Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Saito (Japanese 03-211123, cited by applicant).

Saito teaches a method of taking out sheets comprising: preventing contact between the sheets and the pick roller; aligning the leading ends of the sheets

against abutment guide 52; and performing a sheet pressing operation by pressing plate 6.

6. Claims 1 through 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
